

WP-8 | WP-6

WP SERIES

Designed to deliver exceptional sound without compromising aesthetics, the WP Series from TruAudio offers premium performance in a sleek, in-wall form factor. Available in two sizes, the WP-6 features a 6.5" polypropylene woofer, while the WP-8 steps up to an 8" polypropylene woofer. Both are paired with a 1" silk tweeter for a smooth, balanced, 2-way audio experience. Installation is a breeze thanks to TruAudio's patented TruGrip™ technology, allowing for fast, secure, toolless installation that saves time and effort without sacrificing stability.

WP-8
