

SHORE

# New Rolatv Flat Pack Laser TV Cabinet

Elevate your home theater with seamless automation, transforming living spaces into cinematic realms at a touch.

# One-Touch Command, Infinite Possibilities

Experience cinematic elegance at your fingertips—effortlessly deploy a floor-to-ceiling projection screen and concealed laser TV with one touch, then retract everything into the cabinet's sleek frame, reclaiming 38% of your living space through whisper-quiet automation.

# Stealth Movement & Precision Control

Featuring an intelligent motorized lift platform with exceptional 30kg load-bearing capacity, this system effortlessly accommodates 99% of projectors on the market. Its precision alignment mechanism ensures ideal screen dimensions for ultra-short throw (UST) projectors, delivering consistently perfect throw distance across every projection session.
