

TRUAUDIO D2

Power, precision, and simplicity come together in the TruAudio D2, a compact yet powerful 2-channel digital amplifier designed to deliver exceptional performance and versatility in any audio setup.

With 100W at 8 Ω , 200W at 4 Ω , and 400W bridged at 8 Ω , the D2 gives you the flexibility to power anything from a pair of bookshelf speakers to a full outdoor audio zone.

Seamless connectivity is at the heart of the D2. HDMI eARC allows for effortless TV integration and volume control through a single TV remote, while analog RCA inputs give you flexibility for additional sources. The link in and out function makes it easy to daisy-chain multiple amplifiers while maintaining a single source, perfect for expanding your system.

When streaming isn't needed, long-range Bluetooth offers quick, reliable wireless playback. A dedicated subwoofer output with adjustable frequency lets you dial in the perfect low-end response, while gain control provides precise tuning to match your system.

Whether it's the centerpiece of your living room system or driving outdoor speakers on the patio, the TruAudio D2 is built to deliver powerful, clean audio with smart connectivity and installer-friendly flexibility.

D2

Amplifier Type:	2-Channel Digital Amp
Power Output:	100W @ 8Ω 200W @ 4Ω 400W @ 8Ω
Bridge:	400W @ 8Ω
Inputs:	HDMI eARC, Link, Analog, Bluetooth
Outputs:	Sub out with EQ adjustable crossover, Link
Bluetooth:	Bluetooth 5.3
Power Requirements:	100-240V 50/60Hz
Dimensions:	W: 8.7" x D: 10.4" x H: 1.7" 220 x 265 x 44mm
Weight:	4 lbs

**WALL MOUNT
INCLUDED**
