

TEMPEST TOWER

OUTDOOR LINE ARRAY BOLLARD

The Tempest Tower is TruAudio's most advanced outdoor speaker, delivering immersive, evenly dispersed sound in any outdoor space. Featuring an exclusive 16 tweeter curved line array, 4 polypropylene mid-woofers, and an integrated 10" waterproof bandpass subwoofer, the Tempest Tower produces wide coverage, high SPL, and distortion-free clarity for both seated and standing listeners.

Built from marine-grade, UV-resistant materials, the Tempest Tower is engineered for year-round durability. Its installer-friendly design offers versatile placement: it can be buried in a garden, placed directly into landscaping, or secured on patios and decks with the built-in base plate. Designed to work seamlessly with TruAudio's D2 2-channel, 100 watt amplifier, it delivers powerful, well balanced sound without complicated system requirements.
